

Dear FCC,

I am writing to let you know that I am against repealing the laws that prohibit any media company from owning both TV and newspaper in the same geographical area. As it is, ownership of media in this country is already highly concentrated and therefore highly biased in its reporting. How can we have true democracy when we don't also have a variety of accessible sources from which to get the information that helps us form our opinions?

Thank you for taking the time to read this letter,
April Schaile
